

# Our Philosophy

## Construction Contractors need a different approach to ISO Certification

*We fit ISO to your business; we don't expect your business to fit to ISO*

*The simplest solution is ALWAYS the best – we do not add complexity*

*If it ain't broke don't fix it – we do not reinvent the wheel*

*There is a quality management solution to every issue in your business - our Clients will understand and appreciate that*

*Our service will offer remarkable value*

*We will work as quickly as the client wishes to go*

*We will ensure that anything that is effective for your business will be ISO compliant*

*Every client will secure ISO first time around - nobody will be left behind*

*We will work with aspirational businesses; they want to be the best they can be and we will leave individuals and their businesses elevated*

*All good contractors deserve recognition*

### *Testimonial*

*"Andrew provided a first class service, guiding us through the process and made the journey as simple and as pain free as possible".*

**PHILIP O'REILLY, MD, RIDGE INTERIORS LTD.**
